Subject: Assignments and Assistant Division Chief Vacancies

Effective November 10, 2002, Dennis Armbruster is being reassigned to the Assistant Division Chief position in the Waste and Hazardous Materials Division (WHMD). Dennis' management and program knowledge will be an asset to the WHMD. The combination of Dennis and George creates an excellent management team with exceptionally broad management and programmatic experience to lead the WHMD.

Effective November 10, 2002, Bill Burton is assigned to serve as acting Air Quality Division Chief. This assignment will last until Vinson Hellwig arrives on December 2, 2002.

The vacant assistant division chief positions for the Air Quality Division and the Environmental Science and Services Division will be posted immediately. Bill will not be a candidate for either of the vacant assistant division chief positions.

Please extend your full cooperation and support to Dennis and Bill as they assume their new assignments.
